- Aerospace Systems Engineer
- Aerospace Test Engineer

MAIN DUTIES:

This group performs some or all of the following duties:

- Design and develop aerospace vehicles, systems and components such as aircraft, spacecraft, missiles, satellites and space-based communication systems
- Develop and conduct computer simulations of aerospace vehicles, systems and components using advanced mathematical modelling
- Prepare specifications for materials and processes to be used in aerospace manufacturing, maintenance, repair or modification
- Supervise and coordinate the manufacturing, assembly, modification, repair and overhaul of aircraft and spacecraft.
