ALSO KNOWN AS

- Acoustic Emission Technician
- Aircraft Non-Destructive Inspection Technician
- Eddy Current Technician
- Industrial Radiographer
- Infrared Thermographer
- Liquid Penetrant Testing Technician

MAIN DUTIES:

This group performs some or all of the following duties:

- Transport, set up and calibrate non-destructive testing equipment
- Conduct tests to ensure quality or detect discontinuities (defects) using ultrasonic, radiographic, liquid penetrant, magnetic particle, eddy current and other non-destructive testing methods
- Establish techniques for proper examination of objects under inspection, ensuring strict adherence to safety regulations
- Interpret radiographs, cathode ray tube (CRT) or digital readouts, conductivity meters and visual indicators
- Apply testing criteria in accordance with applicable specifications or standards and evaluate results.
