## Occupational Groups with Highest Number of Job Ads

Hiring Demand Bulletins are New Brunswick-focused reports prepared by the Department of Post-Secondary Education, Training and Labour (PETL) based on online job ads from across the internet. Each online job ad is assigned values for a number of different variables including location, occupation, employer, and skills requested. Errors such as ads being assigned incorrect occupational codes and ads being doubled counted may occur. All data included in this report should be interpreted and used with caution.
